

EQUIP CONDUCTS SURVEY ON QUALITY IN INTERNATIONAL PARTNERSHIPS

The EQUIP project is currently running a Europeanwide survey launched across higher education institutions.

The survey focuses on the criteria institutions use to evaluate international partnerships — spanning mobility, educational cooperation, research collaboration, and strategic institutional partnerships. By gathering insights from those who work directly with international university partnerships, the project aims to build a clearer picture of what “quality” means in practice across the sector.

The findings will play a key role in shaping a future tool designed to evaluate, and thus strengthen and support effective partnerships throughout European higher education.
